(The Mothers Day Non R\*N.No: 997 (or 996.5 if you support the FTSF!))

The FTSF decreed that there was no precedent for having a R\*n on Mothers Day...the Burnie Hashers decreed otherwise so it came to pass that the GM and the D/A Dawg set an Un-Traditional Mothers Day R\*n from Guide Falls and carrying on with the non conformist theme, the r\*n report is filed by the Hare... the Hon Sex being occupied with more weightier tomes to produce by this weekend!

A goodly band of eager Hashers gathered in the lower car park at Guide Falls...again in an unconventional move we appointed Slack Mac Poxxy Trailmaster...he who does not know how to follow trail if it bit him on the posterior!!! Trail started at the BBQ area and promptly headed up the winding track to the Falls, looping around the upper car park before diving into the scrub... along forest tracks with the pack chattering happily as they went; a couple of Master Checks kept all together until the Mobile Post Code was spotted laden down with nibbles and chateau cardboard port (sorry fortified wine!). After clearing the plates and emptying the cardboard we adjourned to the House of Hump for a lasagne and sausage feast!

On-on A Bit of This

Slack Mac is weak at the knees with emotion as he thanks A Bit of This for setting the traditional Mother's Day R\*n.

Hash hound Ally shares her Mother's Day joy with the pack.

A Frenchman, a Welshman and an Irishman walked into a bar...but the Irishman went home to visit his Mum...

Ringo prepares Speed Hump for deep-frying in celebration of her 350th.

Maastercheck, daahling!
